PHOTOCHROMIC

REVEAL THE INVISIBLE WITH
THE BEST LENS IN THE MARKET

Searching for a competitive advantage, superior protection, or an extraordinary visual experience? We thought so. That's why we created Phantom, Bollé's first photochromic lens with phenomenal optical clarity.

VOLT+
HIGH CONTRAST ENHANCED COLOUR

HIGH CONTRAST

EXPERIENCE THE POWER OF COLOUR WITH
AN EXCEPTIONAL HIGH CONTRAST FILTER

To see colours like never before, you need to test colours like never before. Which is why Bollé used artificial intelligence to evaluate over 20 million colour enhancement possibilities. In the end, only one formula provided an incomparable colour experience and it's so unique, it is patented. It's called Volt+ and it now establishes a whole new standard for high contrast lenses.

PLATINUM

A true reference in the world of eye protection, Bollé Safety offers protective glasses trusted by professional workers in demanding industries like automotive, construction, mining, or pharmaceutical. Platinum represents the highest level of expertise in anti-fog and anti-scratch protection.

With **Phantom**, Bollé brings this expertise to everyone. A perfect protection with a more performing anti-fog and an anti-scratch that last 40% more than the standard.

LIGHTWEIGHT

Phantom is made out of a material 14% lighter than polycarbonate. This allows for larger designs with fuller coverage, ultimate protection and utmost comfort.

AVAILABLE IN PRESCRIPTION

Because everyone's vision is unique, Phantom lenses are available on our RX-able frames, suitable for 99% of prescriptions.

PHOTOCHROMIC PERFORMANCE

Phantom lens technology adapts to any light condition, ensuring precise visual acuity whatever the weather. The lens tint changes with the light from cat.1 to cat.3. Enhanced vision whatever the conditions.

HIGH CONTRAST

Bollé has advanced the performance of Phantom lens technology by adding a high contrast filter on its lenses. Available on all Phantom lenses, the high contrast filter boosts colours and significantly enhances your vision. Whether you are on the road or on trails, high contrast lenses will help you perceive the obstacles.

HIGH IMPACT RESISTANCE

NXT® lenses not only protect you 100% from harmful UV rays, but are also built for maximum impact resistance. NXT® is one of the strongest materials on the market. Originally adapted from military use - jet canopies and helicopter windshields - lenses are subjected to rigorous high-velocity impact tests.

OPTICAL CLARITY

Made with NXT® material, Phantom lenses raise the optical clarity of our lenses to a new level. NXT® material is packed with a lot of features such as optimal clarity, lightweight, high impact resistance, chemical resistance, and of course 100% UV protection. Ideal for a sport use, Phantom lenses will offer maximum protection & comfort of vision for your eyes.

PRESCRIPTION PROGRAM

ADVANCED TECHNOLOGY AND PREMIUM SERVICE

Software using the most advanced calculations is used to create customized lenses and the ultimate in lightweight products. Every prescription is reassessed to compensate for optical distortions related to the frame wrap angle. When the prescription reaches the limits of the conventional digital surfacing method, our patented algorithm calculates the best lens geometry regarding the optical area, the transition zone and reduces the edge thickness (US patent number 8,002,404). Every product is customized to the prescription, frame and wearer's facial metrics, ensuring optimum precision, comfort and frame balance for sports sunglasses.

A TRANSPARENT & INTUITIVE WEBSHOP

Since Fall 2022, a new version of the RX Webshop (link : https://rx.bollebrands.com/) has been made available to the opticians, to make the RX ordering process even smoother.
More informative, easier to use : you can enter the prescription details of the frame wearer and the webshop will automatically filter for you the available frame & lens combinations corresponding to his (her) prescription.
A lens thickness calculator also helps you to anticipate the best solution for each wearer.

FRAME TECHNOLOGY

Wearing Bollé's ultimate lenses is key to enhancing your vision of the world, yet it is not enough. At Bollé we give extra attention to details and technology while creating our frames, in order to ensure you get the most comfortable and reliable eyewear for your active life.

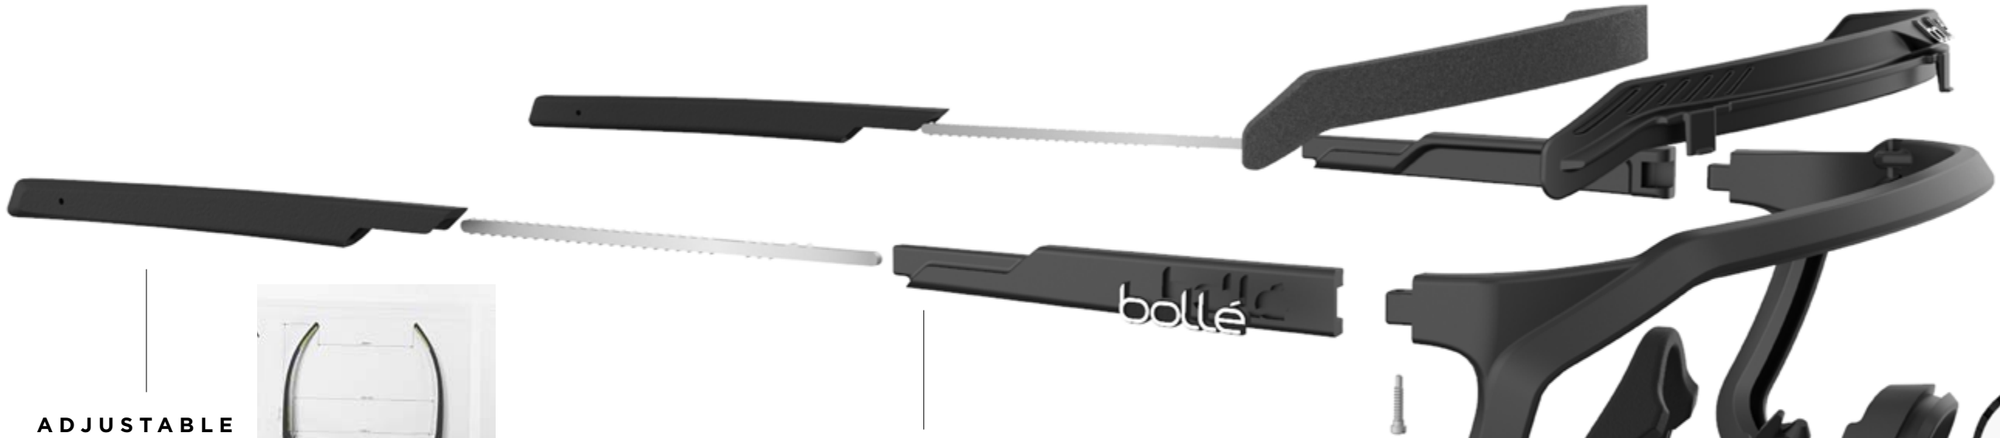
PERFECT COMFORT



ADJUSTABLE TEMPLES

The temples can be adjusted which offers a truly tailored fit and the ultimate in comfort.

S-FIT SIGNATURE TEMPLES

For a pro cyclist, having the strap of your helmet going over the temple of your sunglasses is a real fashion faux-pas.
That is why we created that distinctive curved design on our sunglasses temples to make sure that mistake never happens.
In addition, it loosens the strain in the temple making it more flexible at the rear and providing better comfort and stability while keeping it steady on your face.

REMOVABLE SIDE-SHIELDS

For high-altitude adventures, our mountain frames come with side-shields for the ultimate solar protection.

NYLON AND ECO-NYLON FRAMES

Bollé uses only the finest grade nylon, resulting in frames that are exceedingly strong, yet lightweight and flexible.
No matter how tough the competition, these sunglasses can take it.
All of our 6 new models are eco-designed with more than 20% recycled or bio-based materials (perccentage in weight).

REACT FOR GOOD

ADJUSTABLE NOSE PIECE

The shape and angle of the multi-plane nose piece can be adjusted to accommodate any nose bridge for a truly custom fit.
The hypoallergenic and durable nose piece can be tailored for a custom fit, giving you additional control and comfort.

INTERCHANGEABLE LENSES

Bollé helps you stay on top of your game with this interchangeable lens system. By giving you the flexibility to match the lens to the condition, this system ensures optimum performance for any condition.

OFFICIAL SUPPLIER

B&B HOTELS - KTM

UCI Pro Cycling Team

Created back in 2017, the B&B Hotels – KTM team is based in Brittany. Cycling has been in the region's blood for more than a century. **For training and competition, the riders wear the best products from Bollé's Sports Performance range,** including the C-Shifter with its Volt lens, the Icarus equipped with exceptional-quality, all-weather Phantom lenses, and the new Avio Mips helmet from spring onwards.

«We're really proud of this partnership with Bollé. Collaborating with such an emblematic brand, with deep roots in our sport, guarantees both quality and reliability. We are all aware of Bollé's history and the riders know that they can entirely trust the products. They are the first ambassadors for the products they wear and can provide the brand's management with feedback. The first year of our partnership drove everyone forward and saw key improvements being made. Sunglasses and helmets are key items of kit to ensure rider safety and performance: we all want the best quality possible.»

REACT FOR GOOD

AT BOLLÉ, WE DON'T CLAIM WE ARE GOING TO SAVE THE PLANET. HOWEVER, IF WE ARE NOT A PART OF THE SOLUTION, **WE REFUSE TO BE A PART OF THE PROBLEM.**

STEP BY STEP, WE ARE HEADING TO A MORE SUSTAINABLE APPROACH SYMBOLIZED BY OUR "REACT FOR GOOD" CAMPAIGN. FOLLOWING THE LAUNCH OF OUR ECO-DESIGNED CYCLING HELMETS, SKI HELMETS AND SKI GOGGLES, WE ARE PROUD TO ANNOUNCE THAT **WE NOW OFFER 9 MODELS OF ECO-DESIGNED SUNGLASSES,** 4 ON OUR PERFORMANCE RANGE AND 5 ON OUR SPORTS LIFESTYLE RANGE.

THIS IS OUR NATURAL RESPONSE TO THE NEEDS OF PEOPLE WHO WANT TO PURSUE AN ACTIVE LIFESTYLE WHILE DOING THEIR PART FOR THE PLANET.
